

Sarah Timpson – President Elect Candidate

My name is Sarah Timpson. I have been a school nurse with Granite School District since 2018. Before becoming a school nurse, I worked for about 15 years in Same-Day Surgery and the OR at Primary Children's Hospital. I also was the Director of Nursing for 4 years at a small surgical center in Murray. I've been serving as your USNA Treasurer for the last 4 years. I have found it challenging but educational to manage the financial in-workings of this non-profit organization. I have found it rewarding to sit on the USNA Conference Committee and have my suggestions be heard and implemented in our Spring and Fall Conferences. But most of all, I have enjoyed making school nurse friends all around the state. My husband is a School Counselor. We have 4 children (two still in public school), and one grandchild. Outside of work, I enjoy singing, skiing, and playing games with family and friends, especially pickleball. I'd appreciate the opportunity to use my leadership experience by continuing to serve on the USNA Board as the President Elect.

Amanda Hehr – Vice President Candidate

My name is Amanda Hehr and I'm running for the office of USNA Vice President. I currently work as a District School Nurse in the Jordan School District, where I started my school nursing journey in July 2017. I received my NCSN credential in July 2022. I've been a nurse since 2010 and worked in a hospital in California on a Postpartum Unit prior to moving to Utah in July 2017. I am married to an awesome guy named Jake and we have 3 children: Everett (10), Adeline (8), and Autumn (1). I'm currently finishing my term as USNA's Vice President and am running one more time. I have really enjoyed planning these conferences, alongside my amazing committee, and, if re-elected, look forward to assisting the school nurses in Utah in their professional development with these learning opportunities. I hope you will give me another opportunity to serve as your Vice President. Thank you.

Angela Beth Montour – Nominations Committee Candidate

Angela Beth Montour has served as a school nurse with Alpine School District since 2021. Beth is responsible for three schools in Eagle Mountain with a student population of nearly 3200 students. She is a member of the school district's nurse communications leadership team producing a quarterly newsletter for families and stakeholders in a district of over 87,000 students. Previously, Beth worked in Utah County hospitals in Mom/Baby, Pediatrics, and NICU and in patients' homes as a scheduled and on-call home health and hospice nurse. She came to school nursing after two years of bedside nursing on Surgical/Transplant at Intermountain Medical Center in Murray and becoming a charge nurse.

Beth came to nursing later in life, and balanced home life with her husband and their three children during her ASN studies. She graduated from UVU in May 2017 with an ASN with High Honors, and in May 2018 with a BSN Cum Laude. During her schooling, she developed a leadership team and was elected president of the Student Nurses Association at UVU to serve a one-year tenure with that team. She also volunteered six hours a week for seven semesters in UVU's rigorous Anatomy program.

Beth has loved making the switch to school nursing, and serving the students and families in her community. She particularly enjoys connecting with the students while teaching in the classroom and helping them learn more about their health and well-being, and how those connect to their education. She originally anticipated becoming a nurse-midwife when she began school, but is thrilled to now serve families in a different way. She loves school nursing, and hopes to also be allowed to serve her fellow nurses as the Nominations Chair of the Utah School Nurses Association

Marci Numbers – Treasurer Candidate

Marci Numbers, RN BSN, has worked as a pediatric nurse for the past 9 years. She holds a nursing degree from Salt Lake Community College (2014) and a bachelor's in nursing from Western Governor's University (2019). After graduation, Marci worked at Primary Children's hospital on the medical unit and in same day surgery. Originally graduating with a bachelor's degree in Elementary Education from BYU (1998), Marci combined her love for health, children and education by becoming a school nurse in 2021. Working in the Granite School District as a school nurse has been an incredible experience for her and she looks forward to continuing her career in school nursing.

When not at the schools, Marci enjoys spending time with her husband and 5 children, running, spending time outdoors, reading, and "Netflix and Chilling."
